Learn A Better Way In Just Two Days!

1. How to become Brain Smart® and emotionally literate:

- Assess a child's behavior in seconds and know exactly what tools to use to help the child regain self-control.
- Learn discipline skills that will literally change a child's brain chemistry, yielding lasting results.
- Gain insight into yourself that is self-empowering. Never again be victimized by others' words and actions.

2. How to "wire" children for self-control:

- Understand why children are impulsive, aggressive and distractible, and learn how to resolve these problems.
- Learn S.T.A.R. power so you can stay in charge of the children while maintaining your self-control.

3. How to build a School Family™ that promotes academic literacy:

- Create a culture of caring where children choose to be helpful.
- Intrinsically motivate children so you can, if you choose, let go of rewards and punishments.
- Integrate teaching academic curriculum with teaching life skills by basing your program on safety, inclusion and cooperation.

4. How to set limits and get results:

- Learn five conflict resolution skills that will change your life.
- Avoid power struggles and use tattling as a powerful teaching tool.
- Transform daily conflicts into cooperative teaching moments.

"I personally invite you to spend two meaningful days with me, learning specific strategies for classroom management. Our *Two Days to a Better Way* workshops will help you to change your life so you can change the lives of the children in your care."
